Evaluation Licence Agreement for TnT

This agreement is made and entered into as of _____ by and between the parties:

a) Thorsten Brants
   Postal address:
   Saarland University, FR 8.7 Computational Linguistics
   P.O.Box 151150, D-66041 Saarbrücken, Germany
   referred to as: "LICENSER"

b) _____

   _____

   _____

   _____

   referred to as: "USER"

1   Product

TnT, the short form of Trigrams'n'Tags, is a very efficient statistical part-of-speech tagger that is trainable on different languages and virtually any tagset. The component for parameter generation trains on tagged corpora. The system incorporates several methods of smoothing and of handling unknown words.

TnT consists of four modules: parameter generation (`tnt-para`), the tagger (`tnt`), comparison of original and tagged files (`tnt-diff`), and token/type/tag counting (`tnt-wc`). Two pre-compiled language models are supplied, one for German and one for English.

The work on TnT was made possible by support of Hans Uszkoreit at the department of Computational Linguistics, Saarland University, and by a grant from the Deutsche Forschungsgemeinschaft in the Graduiertenkolleg Kognitionswissenschaft Saarbrücken.

The German language model that is delivered with TnT is generated from the NEGRA corpus. This corpus was part-of-speech tagged and manually corrected at the Saarland University, Computational Linguistics, Saarbrücken, and University Stuttgart, Institut für maschinelle Sprachverarbeitung. It was also syntactically (structurally) annotated in Saarbrücken.

The English language model that is delivered with TnT is generated from the Susanne corpus. This corpus was published by Geoffrey Sampson and is described in his book *English for the Computer*, Clarendon Press, Oxford, 1995.

2   Copyright

Copyright of TnT is to Thorsten Brants.

3   License

LICENSER grants USER a non-exclusive license to use TnT, version 2, for evaluation purposes. USER agrees

- to use TnT only for non-profit evaluation purposes;

- to report changes that USER makes to the programs to LICENSER;

- and to acknowledge the use of TnT in all publications reporting on results produced with the help of TnT.

This license expires _____. USER must obtain a new license if TnT is used after this date.

Use of TnT or products derived from TnT for any commercial purposes requires explicit written agreement of LICENSER.

4   Non-Disclosure

TnT will be held in confidence by USER and will not be disclosed by USER to third parties.

USER shall and will employ all necessary precautions to ensure that no persons or institutions other than persons as are in the employ of USER or in the same research project as USER will get access to TnT or parts thereof. Other persons or institutions desiring access to TnT should be directed to LICENSER to obtain separate licence agreements.

5   Fee

This license is granted by LICENSER to USER free of charge.

6   Disclaimer

TnT and its documentation is provided on an "as is" basis, with no guarantee of its veracity or accuracy. No liability is accepted for any damage caused by its use.
