AI for Smart Cities

Isabel Losantos and Egoitz Herrera
ATAI Homework 1

INTRODUCTION

A BIT OF HISTORY

A century ago only 14%

Nowadays +50% and up!

WHAT EXACTLY IS AI? WHAT IS ARTIFICIAL INTELLIGENCE?

● Cumputers simulating HUMAN intelligence!
  ○ Taking decisions…
  ○ Resolving problems…
  ○ Recognizing words and images…
  ○ Learning from data…

…like a HUMAN!!

SOME INTERESTING RESEARCHES

- The U-Tool from the Valencian University
  - Mobility tests
    - Detect activity and planificate things
  - Feeling tests
    - Identificate public opinion to evaluate
- Bill Gates and his Cloud solutions
 - Work wherever and whenever you want

**HELPFUL FOR WHAT?
HERE YOU HAVE A FEW
EXAMPLES!**
● Public safety...
● Administration of city-resouces...
● Management of production...
● Predict accidents...

...and MORE!

SMART CARS AND TRAFFIC-LIGTHS

BETTER PUBLIC SECURITY

SMART ECONOMY

BETTER PUBLIC SERVICES

CONCLUSION: AI IS THE FUTURE!!
